

Aditya Raj

Data science & Machine Learning

Summary

Data Scientist and Machine Learning Engineer with working experience in computer vision, image processing. Hands on experience in building machine learning model. Good understanding of statistics and maths.

Experience

Byju's-The Learning App (Business Development)

- ◆ helps companies to boost growth and sales
- ◆ Developing and implementing sales strategies, client service and retention plans, and analyzing sales data to inform or update marketing strategies.
- ◆ Build relationship with client

Ambeston Electrical (January 2019-July 2019)

- ◆ Created or approved accurate energy model of entire plant i. Calculated expected solar energy production
- ◆ build relationship with client

Projects (Data science and Machine Learning)

Uber Dataset Analysis

- The aim of analysis is to identify the root cause of the problem (cancellation and non-availability of cars in particular area) and recommend ways to improve the situation.

Car price prediction

- Analysis the dataset and understand the factors on which the pricing of cars depends

Education

S.R.M UNIVERSITY

B.Tech(Electrical & Electronics Engineering) 2018

HOBBIES

playing football, writing poems

SKILL

- Python
- Machine Learning
- (Linear, Regression, Logistic, Regression, Decision Tree, Random Forest,)
- Matplotlib, Seaborn
- Tensor flow
- statistics, Linear Algebra, Probability
- Ms Excel
- Supervised, Unsupervised Learning
- Leadsquared
