SKILLS

- ❖ Well, in Coding using Python and C++. Hackerrank, Codechef, Codeforces, Leetcode
- ❖ Technical Writing
- ❖ Good communication skills with enthusiastic confidence.
- ❖ Proficient in data analyzing and building patterns.

PROJECTS

Stocks Price— GitHubRepo

This project aims to solve the problem for those who wish to monitor the real-time stock prices of some particular stocks. It uses an API from IEX Cloud to get the stock prices. It has a backend database that stores the stocks added, and users can also perform add and delete operations.

Code your MS Word — GitHubRepo

This project was a part of my academic curriculum in which the need is to write codes for the features available on MS Word, using Python as a programming language. I had written the codes for 40 such features, with over 500 lines of Python code in the project.

Adulterants in Food —

I completed this project in my pre-engineering, wherein I tested over ten food items that we consume daily to check for contaminants and submitted a report on them. During my study period, I completed this project under the guidance of Mr.Sanjay Gupta, the senior-most faculty of Chemistry in the institution.

ADDITIONAL

- ❖ Secretary of SAE Club, IIT Jammu.
- ❖ Active Member of Literary Club and Drama Club of IIT Jammu.
- ❖ Representative of Training & Placement Cell of IIT Jammu.
- ❖ Member of Coding Club and Prism (Media cell) of IIT Jammu.
- ❖ Headed many cultural events and hosted talk shows.

LANGUAGES

English, Hindi, Punjabi.
