PROJECTS

Prodigy Finance web app (freelancing)
This web app is used for finance company through that we have to take Business loan and education loan. My role is front end through **ANGULAR**.

cold storage management system
- We covering the entire storage to delivery include services like processing, packaging and transport of goods via specialist refrigerated logistics providers – comes with a unique set of challenges. And being food   stuff, many of these challenges are critical, as they relate directly to the product condition and how it arrives in a safe condition to the consumer.
- Language used:- python,Django,HTML,JS IDE:- Visual code Data Base:- sqlite
