  - Technologies used :-Node JS, Express JS,Mongo DB, React JS, Material UI
  - Libraries used :-Axios, Nodemon , Mongoose, Material UI icon, React-router-dom
  - Using this app we can store delete update the book info, basic crud operations writen here.
  - Backend server implemented using node express to serve APIs
  - Front- end designed using Mterial UI and react-router-dom is used to move into different routes

EXPERIENCE

ROLE :-STUDENT TRAINEE
10x Accademy (07/2019 - Present)
Currently pursuing full stack development boot camp in 10x-accademy

ROLE :-CONTENT ANALYST
Bytedance India pvt ltd (Tik-tok) (02/2019 - 09/2022)

I have experience in different content moderation projects with deep knowledge of policy guidelines and have good proficiency in MS Excel. During this work period, I highlighted critical cases in the platform to the higher authorities, which helped the firm to remove them and avoid product risk.
